Repository audit: start here

This handoff maps **19,959 retained files** and documents the cleanup of **2,557 named generated/redundant files** (916.96 MB). Original reconstruction/viewer code, unique models, source footage, masks/calibration and completed reports were preserved. No public-server change or new training run was made.

Measure	Result / interpretation
Workspace	C:\Users\bombe\Documents\Codex\2026-10-27\files-pasted-by-the-user-system
Git state	No .git metadata in this workspace or its parent chain. No repository was initialized, committed or pushed.
Before cleanup	22,511 files; 20.215 GB logical file bytes.
After cleanup	19,959 files; 19.298 GB logical bytes; 13.839 GB across distinct local file identities.
Cloud assets	56/56 verified: 54 unique 3D exports/seed models plus original OSV and matching LRF; 9.834 GB.
Current public release	20261031-osmo-clean-v1. Latest local 20261101-osmo-parity-review failed visual acceptance and was not deployed.

How to use this PDF: read the map, workflow and retention guidance first. The authored-file section explains each source/test file. The full register then lists every retained path, purpose class, importance and byte count, including vendor and evidence files. Use PDF bookmarks and search for a filename. An embedded CSV provides the same complete register for sorting.

Workspace map: current, shared and historical branches

Public release sources

work/osmo-clean-20261031/
review/production/
Current live baseline and rollback identity.

Latest local review

work/osmo-parity-20261101/
review/production/
Controls fixed; model quality gates failed.

Read-first records

README.md
assets-manifest.json
docs/repo-audit-2026-11-01/
Map, asset identities and deletion receipts.

Shared reconstruction foundation

osmo-clean: geometry/ and masking/
osmo-reconstruct: seed_fisheye.py
osmo-improve: photo_bake_agent.py
Later scripts import these across folders.

Shared local tool environment

mobile-20261029/package-lock.json
node_modules; pydeps; tsdfdeps
osmo-clean/runtime/spirula-2026.10.30/
Keep versions and restore paths together.

Historical / review material

osmo-web-20261031, -v2, -v3
hosting; fullheight; reports
outputs; reference_pack snapshots
Archive/review before removing.

External capture data and cloud assets

The capture datasets are outside this workspace under the OneDrive roomscan data directory. Models/video have a separate Drive identity map. The local working folder layout is intentionally retained because older scripts use direct cross-folder and absolute paths.

This is a dependency map of the project workspace, not the website navigation tree. Green/teal boxes identify code roles; they are not a model-quality sign-off.

Video-to-model-to-website: file responsibilities

Stage	Files / locations	Why they matter
1. Capture and transfer	External originals/*.OSV and *.LRF; work/import-osmo-20261031/transfer-receipt.json	OSV is the high-quality DJI Osmo 360 capture. LRF is its low-resolution preview. The receipt records the original card transfer and hashes.
2. Decode and calibrate	work/osmo-format-20261031/; work/osmo-clean-20261031/select_frames.py; geometry/	Native lens frames, calibration interpretation, adaptive timestamps, one coherent SfM component and one +Y-up normalization.
3. Exclude operator and mirrors	work/osmo-clean-20261031/masking/ and external dataset/masks/	Reviewed per-frame masks and annotations are input evidence, not disposable screenshot clutter.
4. Materialize pinholes / guidance	build_explicit_pinhole.py; fit_explicit_depth.py; validate_explicit_depth.py	Calibrated virtual RGB/masks, cross-time-validated ray-depth maps and the train-only dense seed. Shared poses and scale must remain consistent.
5. Train and review	run_logged_job.py; pilot-runs.py; start-full.py; external training directories	Commands, configurations, logs, raw PLY, evaluation and acceptance records. The new 50k run is complete but rejected visually.
6. Pack, build, gate, deploy	pack-sog.py; production/build.mjs; candidate.json; prepare-deploy.py	The packed asset and source cameras feed the viewer. Quota and quality gates identify the exact release. Deployment templates are operational actions, not normal audit commands.

Local-only data and the external dataset map

External capture root: **C:/Users/bombe/OneDrive/Documents/ChatGPT/Ruang Kamare/roomscan-reconstruction/data/**. These datasets are not part of the 19,959-file workspace register. A directory being under OneDrive is a location statement; this audit does not certify its sync state.

Relative external location	Contents / importance	Retention
20261027_IPHONE_WIDE/	iPhone source/reconstruction data. Protected Fast/Full exports are separately identified.	Keep if rebuilding iPhone.
20261031_OSMO360/originals/	CAM_20261031005909_0004_D.OSV and its LRF proxy. Both uploaded as complete original files.	Original capture: keep.
20261031_OSMO360/clean-v3/dataset/	Native 3840px fisheye RGB, masks and calibrated SfM.	Foundation; not covered by export-only backup.
20261031_OSMO360/clean-v3/explicit-full-v1/	Pinhole dataset, 439 trusted maps, dense seed and current-release training.	Preserve calibration/masks/guidance and needed training state.
20261031_OSMO360/parity-20261101/	1600px dataset, matched pilots, diagnostics and latest 50k run.	Latest rejected experiment and reproducibility inputs.
20261019_095800/	Legacy capture/runtime location referenced by older helpers.	Inspect actual shared runtimes before deleting by date/name.

Backup scope: exported 3D files and original OSV/LRF are backed up. Full optimizer checkpoints, every extracted RGB frame, mask set, COLMAP database and external environment are not all included in that export backup. Keep the corresponding external inputs when reconstruction or exact training resumption matters.

Directory guide and removal priorities

Area under work/ unless root	Purpose / importance	Files	Logical bytes
(root)	Start-here README, Git exclusions and the small cloud-asset identity manifest.	3	82.1 kB
cleanup-20261031	Prior cleanup plan, deletion receipts and protected-file checks.	12	12.30 MB
disk-audit-20261031	Historical storage inventory; read as historical, not current sizes.	2	233.2 kB
fullheight-20261029	Historical iPhone ceiling / cabinet-height repair and deployment evidence.	10	1.47 MB
hosting	Original public-site and Proxmox LXC 710 delivery; includes local access helpers.	823	632.77 MB
import-osmo-20261031	Verified card-to-project transfer of OSV original and LRF proxy.	3	8.8 kB
mobile-20261029	iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.	1,706	721.07 MB
osmo-clean-20261031	Current public Gaussian release sources plus clean calibration/masks/pipeline.	13,357	7.942 GB
osmo-format-20261031	OSV format, colour, calibration and fisheye approximation investigations.	35	10.39 MB
osmo-improve-20261031	Surface, photometric and photo-baking utilities reused by later work.	372	174.31 MB
osmo-normal-audit-20261031	Evidence about depth normals and scene orientation.	4	257.9 kB
osmo-parity-20261101	Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.	2,657	6.286 GB
osmo-pdf-audit	Earlier video-to-model report authoring and verification.	4	98.3 kB
osmo-reconstruct-20261031	Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.	16	315.9 kB
osmo-ux-report-20261031	Previous 73-page quality report, source snapshot and partial historical graph.	104	11.41 MB
osmo-web-20261031	Historical first Osmo mesh delivery; not the current public release.	71	745.67 MB
osmo-web-20261031-v2	Historical chooser / quota changes and delivery experiments.	52	545.12 MB
osmo-web-20261031-v3	Historical mesh release and source for retained iPhone assets.	65	679.88 MB
output	Recent finalized PDFs; current audit PDF is generated after the inventory snapshot.	2	22.14 MB
outputs	Earlier user-facing exports, offline viewers, reports and verification receipts.	32	1.314 GB
recovery-report	Historical iPhone recovery verification and supporting evidence.	315	141.08 MB
report	Original architectural report and Nikon/Samsung/iPhone reference evidence.	124	22.02 MB

Directory guide and removal priorities (continued)

Area under work/ unless root	Purpose / importance	Files	Logical bytes
tmp	Intermediate PDF renders and diagnostic derivatives; original evidence is classified separately.	186	36.44 MB
tools	Workspace inventory, cleanup, backup and audit-document helpers added for this handoff.	4	76.3 kB

The byte column is a logical total, including aliases. It is not a promise of recoverable disk space. Many public model copies are hardlinks to the same file identity.

Canonical files: what to preserve first

Path / group	Role and importance
work/osmo-clean-20261031/review/production/	Live baseline: viewer source, candidate, manifests, approval record and exact build closure. Preserve for maintenance/rollback.
work/osmo-parity-20261101/EXECUTION-STATE.json and acceptance-gates.json	Latest state and mandatory failed release gates. Do not replace them with a generic successful-load statement.
work/osmo-parity-20261101/review/production/	Latest authored controls and local build. release-approval.json is false.
work/osmo-clean-20261031/geometry/ and masking/	Actual calibration, normalization, continuity and source-mask evidence.
work/osmo-reconstruct-20261031/seed_fisheye.py	Shared COLMAP and fisheye utility; later scripts import it directly.
work/osmo-improve-20261031/photo_bake_agent.py	Shared photographic visibility/baking logic and source of copied pilot implementations.
work/mobile-20261029/package.json and package-lock.json	Pinned common Three.js, Spark-adjacent build/packing dependencies. Other stages resolve packages from this installation.
assets-manifest.json and this audit records	Restore identities, local aliases, cloud links, removal journal and confidence labels.

Cleanup performed: exact boundaries and receipts

Removed family / reason	Files
Temporary montage of retained PDF page renders.	26
Rendered page of a retained finalized PDF.	482
Regenerable Python bytecode; authored source retained.	2023
Abandoned temporary packing output; final models retained.	1
Typed packing buffer derived from retained full-precision PLY.	4
Typed packing buffer; both source and compact NPZ geometry retained.	7
Old synthetic deployment-test sandbox.	13
Byte-identical downloaded verification copy; canonical iPhone Full and its hardlinked aliases remain.	1

Total: **2,557 exact file deletions**, **916,957,834 bytes** (874.48 MiB). No recursive deletion was used. Every target was checked for workspace containment, kind, size, file identity and SHA before deletion. The duplicate verification download was checked against the retained canonical iPhone Full hash.

408 catalogued source/test files matched their saved hashes immediately after cleanup. A separate final check preserves all pre-existing reconstruction/viewer code; the new audit helpers and start-here files are explicit additions. No unique model, video, external capture file, completed report or source calibration/mask was removed.

Receipts: docs/repo-audit-2026-11-01/cleanup-plan.json, cleanup-journal.jsonl, cleanup-result.json and source-preservation-check.json. Each removed path retains its reason, hash and regeneration source in the journal.

After cleanup and completed uploads, all **56 original asset sources** were read again in full and matched their saved SHA-256, MD5 and byte counts. Local model-preservation-check.json records the results.

Why hardlinks change the storage calculation

Before cleanup the folder reported 20.215 GB when every path was added. Distinct local file identities accounted for 14.756 GB. Multiple filenames can refer to the same bytes. A hardlink is different from a separate byte-identical copy.

Case	Practical effect	Audit rule
Same device/file ID, several paths	Hardlinked aliases share one underlying file. Removing one alias usually frees no payload bytes while another link remains.	Preserve required paths or update references; do not sum alias sizes as recoverable space.
Same SHA, different file IDs	Independent byte-identical copies consume separate storage. One verified download copy was removed in this cleanup.	Keep a canonical copy and identity/restore record before dropping duplicates.
Links outside the workspace	A file may remain allocated after all local aliases are removed. External training checkpoints often share links with local QA copies.	The catalog includes link count and file ID; inspect external ownership before estimating savings.
Temporary browser-upload aliases	Large uploads used hardlinks in a named Windows Temp staging folder to supply clear filenames, without duplicating payloads.	Remove only staging aliases after Drive completion/readback; keep every original.

The cleanup estimate is based on complete selected link sets. The measured volume free-space delta can differ slightly because other applications write to the same drive.

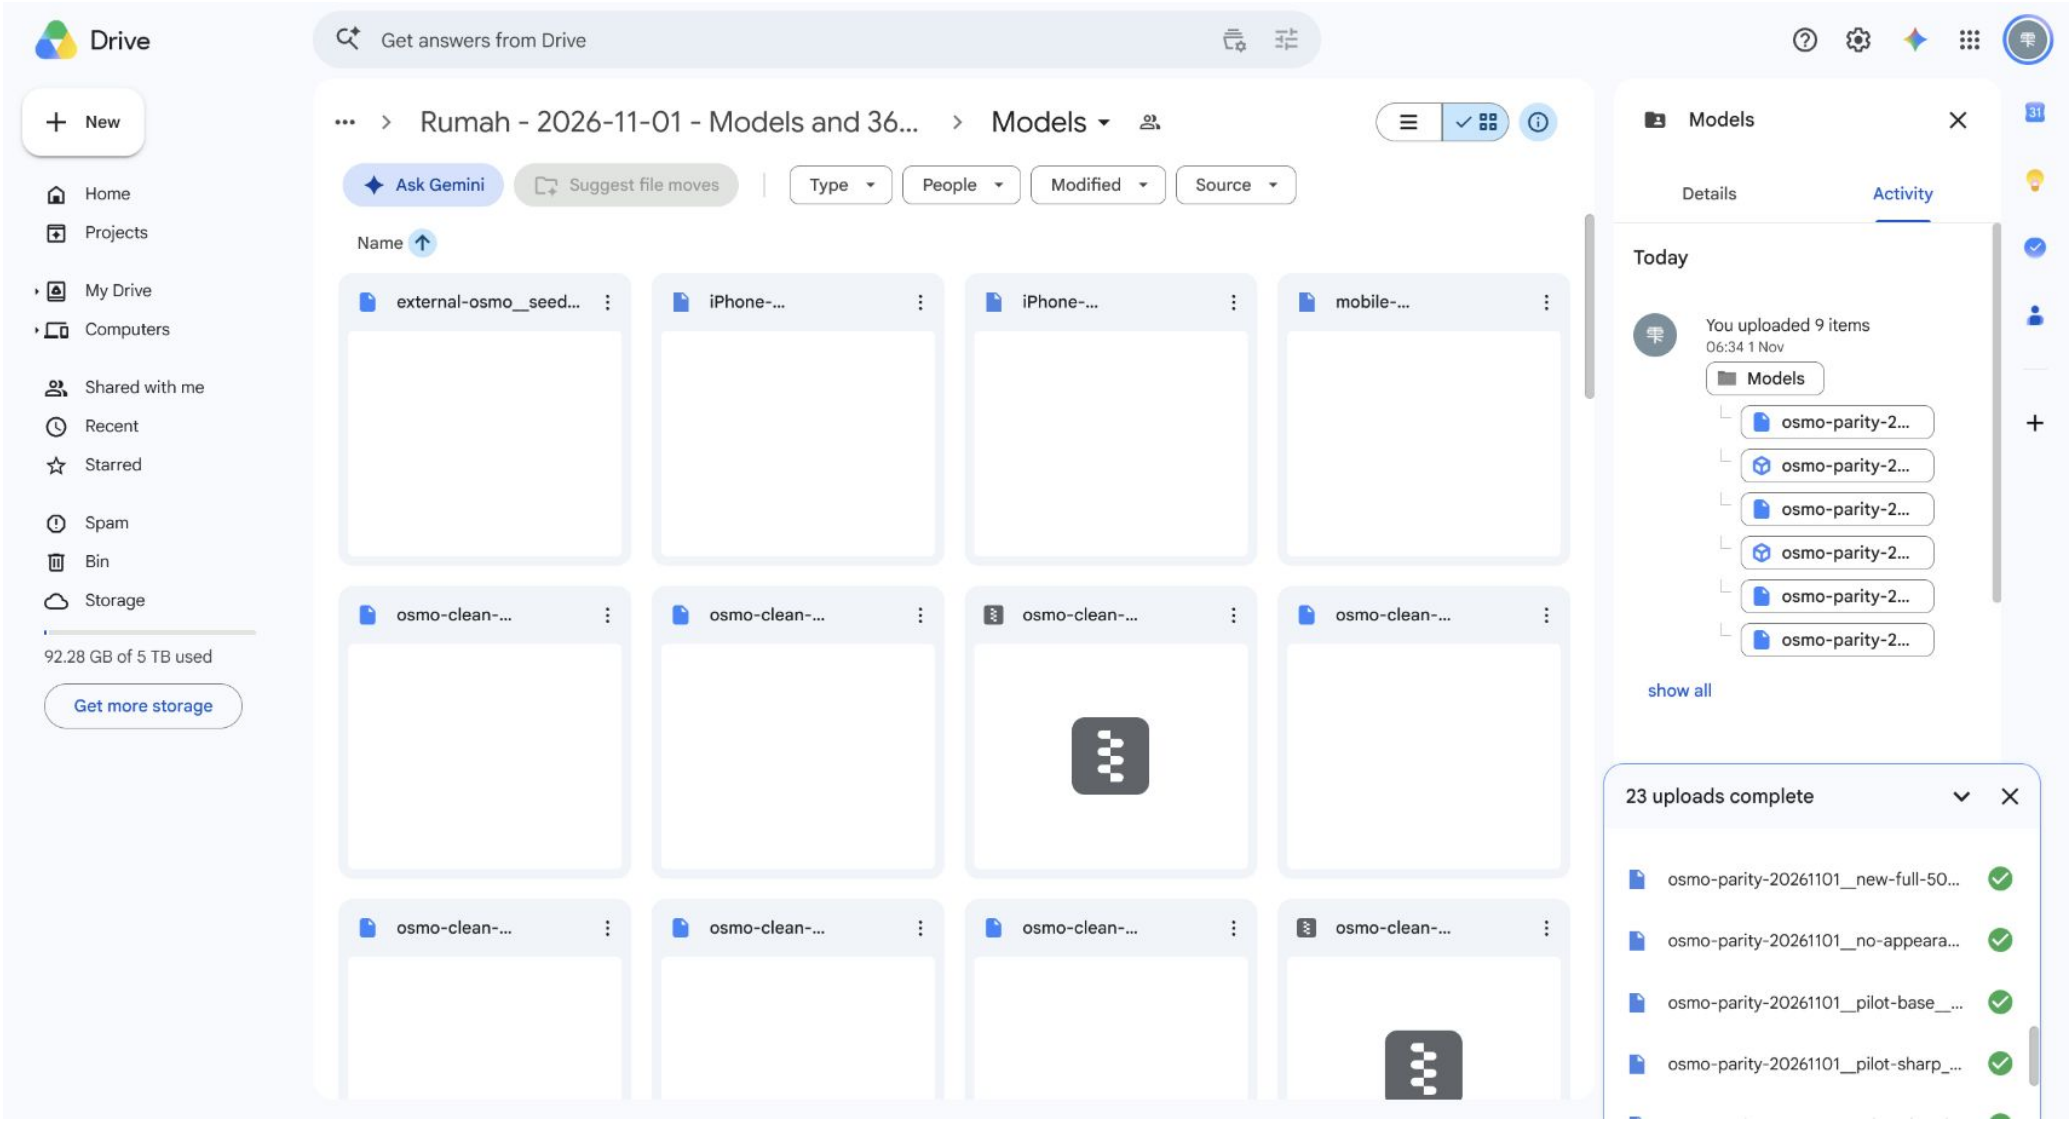

Cloud archive: identity, verification and scope

Destination: Rumah - 2026-11-01 - Models and 360 Source. The existing parent-folder ZIP was preserved. Subfolders separate Models, 360 Source Video and Audit Documents. No permission/ownership change was made; the new files follow the destination folder organization.

Measure	Value
Unique assets	56
3D exports / seed models	54
Original video and proxy	2
Verified files	56
Total unique payload	9,834,491,960 bytes (9.834 GB)
Deduplication	Every complete SHA-256 identity uploaded once; all original local aliases retained in assets-manifest.json.
Verification	Drive exact filename, byte count and target parent checked after upload. Browser uploads also reached a complete state. Local full SHA-256/MD5 are provided.
Checksum limit	The connector normalizes away remote checksum fields. Local hashes are not falsely presented as remote checksum readback.
Large-file transport	Connector limits were encountered; normal Chrome file upload was used after the user enabled the extension file-access setting. Original files were not split.

Live iPhone Fast/Full and Osmo have explicit names. The newer packed Osmo candidate is named REVIEW-REJECTED. Historical and diagnostic raw/packed variants remain identifiable; backing up an export does not approve it for deployment.

Drive proof: large-model batch completed

Chrome shows the completed 23-file large-model batch. The 31 smaller models and original/proxy files are additionally checked by exact Drive metadata readback; the final manifest records all 56 identities.

What the next auditor can reduce

Candidate family	Conditions before removal	Expected consequence
Retired public/ bundles and transport archives	Keep the current live/review source, exact manifest, original model mapping and necessary historical receipts. Verify restoration from Drive and build inputs.	Can remove generated copies, but hardlinks may provide little immediate disk saving.
Old intermediate PLY/GLB variants	Use the asset register and cloud links; choose which diagnostic stages are no longer needed locally. Retain the agreed canonical model and useful raw source.	Large possible reduction; changes which historical experiments can be opened immediately.
Historical code snapshots / old viewer releases	Check cross-folder imports and preserve documentation/provenance. Date or a matching filename alone does not prove a file is unused.	Simplifies navigation; may break old reproducibility paths unless references are migrated.
Local dependency folders	Keep lockfiles, installed versions, native/platform requirements and a tested restore path. These were retained today.	Frees reinstallable packages; current builds may need environment restoration.
Remaining tmp/ photos / metadata	Only PDF page renders/contact montages were pruned. Remaining files may be unique report inputs or diagnostic photographs.	Inspect actual provenance before extending the cleanup to all tmp/.
External capture datasets	They are outside this local-repo cleanup and not fully covered by the export/video backup.	Do not infer that an exported model preserves masks, calibration, source frames or optimizer state.

Importance and confidence legend

Importance label	Interpretation
START HERE	Root navigation, exclusions and cloud asset identity map.
LIVE BASELINE	Recorded public-release code/metadata needed for maintenance and rollback.
CURRENT REVIEW	Latest local experiment and acceptance evidence; not an approved public model.
FOUNDATION	Geometry, source masks, calibration and normalization inputs/tools.
SHARED CORE	Helpers or dependency anchors reused across stage directories.
LOCAL DEPENDENCY	Third-party/pinned local software. Excluded from Git; restore requirements matter.
BACKED-UP ASSET	3D payload mapped to the cloud archive; retain canonical identity before deleting local copies.
USER EXPORT	Delivered report, offline viewer or other requested artifact.
REBUILDABLE	Compiled web asset or similar generated output. Check build/source closure.
HISTORY / EVIDENCE or SHARED / HISTORY	Historical methods, copies and records. They can still be imported or required to reproduce older results.
REVIEW	Unresolved or intermediate file. Inspect before removing.

Purpose confidence is explicit in the detailed source section and CSV: reviewed filename/source context, module docstring, package/path classification, or name/path inference. Filename-reference candidates are hints; constructed paths can be missed and duplicate basenames can be ambiguous. The historical 212-node Graphify graph covers only an earlier subset. It is not an unused-file detector.

Installed dependencies and restore anchors

The shared Node installation is anchored by work/mobile-20261029/package.json and package-lock.json. Direct versions recorded there: Three.js 0.180.0, glTF-Transform 4.5.1, meshoptimizer 0.25.0 and esbuild 0.25.11. Browser Spark is vendored separately. Keep the package metadata with the source that resolves into this shared installation.

work/osmo-improve-20261031/pydeps

glcontext 3.1.0, moderngl 5.13.0, opencv-python-headless 5.0.0.93

work/osmo-improve-20261031/qa-deps

embreex 4.4.0.post1, rtree 1.4.1, trimesh 5.2.0

work/osmo-parity-20261101/tsdfdeps

lazy-loader 0.6, pymeshlab 2025.7.post1, scikit-image 0.26.0, scipy 1.18.1, xatlas 0.0.11

work/hosting/.venv/Lib/site-packages

bcrypt 5.0.0, cffi 2.1.1, cryptography 50.0.2, invoke 3.0.3, paramiko 4.0.0, pip 25.0.1, pycparser 3.12, PyNaCl 1.6.2

The Windows CPython 3.12 and 3.14 tools are used for different tasks in this project. Compiled Python modules are platform/ABI-specific; package lists from separate directories are not one interchangeable environment. The pinned Spirula executable under osmo-clean/runtime is the known working trainer/mesh tool and was retained.

Audit outputs and reproducible entry points

File	Purpose
README.md	Short root map, current-release state and external-data locations.
.gitignore	Excludes binary models/media, installed tool environments and generated outputs from future Git adds. No files are deleted by ignore rules.
assets-manifest.json	Small root identity/restore map with local aliases and observed Drive links.
tools/repo_audit.py	Read-only inventory and model/video hashing; writes audit metadata.
tools/cleanup_repo.py	Dated exact-file cleanup planner/apply helper, with containment and hash checks. Execution journal blocks blind repeat.
tools/finalize_repo_audit.py	Merges verified upload receipts, creates enriched per-file catalog and dependency version evidence.
tools/build_repo_audit_pdf.py	Creates this PDF, full file appendix and embedded catalog.
docs/repo-audit-2026-11-01/	Generated before/after inventories, complete CSV, deletion receipts and Drive verification records. Excluded from its own inventory to prevent recursion.

Read-only inventory command: `python -B tools/repo_audit.py --label audit`. The optional --assets flag hashes full model/video bytes. These tools do not train, deploy or change the public server. Rebuild source environments and assets before running old stage scripts.

The explicit ignore-pattern estimate excludes all 81 model paths from a future source checkout. It leaves approximately 1,254 file candidates (51.77 MB), before a dedicated source/security review. This is an estimate, not a Git status result: there is no initialized repository.

Generated audit pack: supporting file map

File under docs/repo-audit-2026-11-01/	Purpose / importance
asset-upload-queue.json	Unique full-content model/video hashes and all original aliases.
audit-document-upload-journal.jsonl	Verified Drive receipts for the final PDF, complete CSV, identity manifest and supporting cleanup/preservation records.
backup-summary.json	Count/bytes of complete verified asset uploads.
browser-staging-cleanup.json	Proof that only staging aliases were removed after completed uploads.
browser-upload-models.json	Temporary hardlink staging list used for large single-file browser uploads.
cleanup-journal.jsonl	Exact completed per-file deletion record.
cleanup-plan.json	Reviewed target list, reason, regeneration source and hashes.
cleanup-result.json	Cleanup totals and preservation boundaries.
drive-destination.json	Observed destination folder IDs.
drive-model-upload-complete.jpg	Browser screenshot of completed large-model batch.
drive-upload-journal.jsonl	Upload attempts and later verified receipts; verified SHA identities supersede failed connector attempts.
file-catalog-after.csv	Complete retained per-file CSV, also embedded in this PDF.
file-catalog-before.csv	Spreadsheet-friendly pre-cleanup snapshot.
git-ignore-audit.json	File-pattern estimate of source candidates and excluded binary assets.
inventory-after.json	Enriched retained-file register used to author this PDF.
inventory-before.json	Full pre-cleanup snapshot; includes the removed-file identities.
local-dependency-versions.json	Installed package/version evidence from separate local environments.
model-preservation-check.json	Post-cleanup local full-content SHA check of every upload source.
pdf-audit.json	PDF hash, page count, bookmarks and file-ID-to-page index.
pdf-text-verification.json	Independent extraction/count/attachment verification.
pdf-visual-verification.json	Rendered-page layout review record.
source-preservation-check.json	Hash check of pre-existing reconstruction/viewer source and tests.

Authored source and tests: file-by-file explanations

This section explains all 412 source/configuration/test files classified as first-party. The complete register later includes compiled builds, every metadata/evidence file and every third-party file as well. Phase context matters: a familiar filename in an old snapshot is not the current implementation.

Source files: (root)

Start-here README, Git exclusions and the small cloud-asset identity manifest.

`.gitignore`

Stage utility: .gitignore. Start-here README, Git exclusions and the small cloud-asset identity manifest.

Importance: **START HERE**. Purpose basis: name/path inference; verify before deletion.

`README.md`

Stage utility: README.md. Start-here README, Git exclusions and the small cloud-asset identity manifest.

Importance: **START HERE**. Purpose basis: name/path inference; verify before deletion.

Source files: tools

Workspace inventory, cleanup, backup and audit-document helpers added for this handoff.

`tools/build_repo_audit_pdf.py`

Build the repository map, source explanations and complete per-file register.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`tools/cleanup_repo.py`

Plan or apply narrow generated-file cleanup with per-file provenance checks.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`tools/finalize_repo_audit.py`

Merge verified Drive receipts, update the asset identity map and enrich inventory.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`tools/repo_audit.py`

Creates this full inventory, role catalog and unique model/video upload queue.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: cleanup-20261031

Prior cleanup plan, deletion receipts and protected-file checks.

`work/cleanup-20261031/protect_snapshot.py`

Metadata fingerprints of the iPhone work and its shared runtime; no removals.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/cleanup-20261031/remove-retired.ps1`

Stage utility: remove retired.ps1. Prior cleanup plan, deletion receipts and protected-file checks.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/cleanup-20261031/write_receipt.py`

Stage utility: write receipt.py. Prior cleanup plan, deletion receipts and protected-file checks.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: disk-audit-20261031

Historical storage inventory; read as historical, not current sizes.

`work/disk-audit-20261031/audit.py`

Read-only file metadata audit. Never reads file contents or follows junctions.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

Source files: fullheight-20261029

Historical iPhone ceiling / cabinet-height repair and deployment evidence.

`work/fullheight-20261029/before/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/fullheight-20261029/before/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/fullheight-20261029/before/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/fullheight-20261029/deploy.sh`

Stage utility: deploy.sh. Historical iPhone ceiling / cabinet-height repair and deployment evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/fullheight-20261029/prepare_patch.py`

Stage utility: prepare patch.py. Historical iPhone ceiling / cabinet-height repair and deployment evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: hosting

Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

`work/hosting/backup_container.sh`

Stage utility: backup container.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/build_payload.py`

Stage utility: build payload.py. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/build_receipt.py`

Stage utility: build receipt.py. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/check_alt_certificate.sh`

Stage utility: check alt certificate.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/collect_receipt.sh`

Stage utility: collect receipt.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/create_container.sh`

Stage utility: create container.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/create_tunnel.sh`

Stage utility: create tunnel.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

Source files: hosting (continued)

`work/hosting/deploy_site.sh`

Stage utility: deploy site.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/finalize_receipt.py`

Stage utility: finalize receipt.py. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/fix_range.sh`

Stage utility: fix range.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/fix_redirect.sh`

Stage utility: fix redirect.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/inspect.sh`

Stage utility: inspect.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/inspect_credentials.sh`

Stage utility: inspect credentials.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/install_container.sh`

Stage utility: install container.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

Source files: hosting (continued)

`work/hosting/make_asset_verification.py`

Stage utility: make asset verification.py. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/prepare_host.sh`

Stage utility: prepare host.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/remote.py`

Local SSH/SFTP access helper reused by deployment runners; keep access material private.

Importance: **SHARED / HISTORY**. Purpose basis: reviewed filename + source context. 9 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/hosting/stage_and_auth.sh`

Stage utility: stage and auth.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/update_connector.sh`

Stage utility: update connector.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/hosting/verify_assets.sh`

Stage utility: verify assets.sh. Original public-site and Proxmox LXC 710 delivery; includes local access helpers.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: import-osmo-20261031

Verified card-to-project transfer of OSV original and LRF proxy.

`work/import-osmo-20261031/transfer.ps1`

Stage utility: transfer.ps1. Verified card-to-project transfer of OSV original and LRF proxy.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: mobile-20261029

iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

`work/mobile-20261029/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **SHARED / HISTORY**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/deploy-mobile.sh`

Stage utility: deploy mobile.sh. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/deploy-web-v2.sh`

Stage utility: deploy web v2.sh. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/loader-core.js`

Model selection, budgets, streaming progress, cancellation and deadlines.

Importance: **SHARED / HISTORY**. Purpose basis: reviewed filename + source context. 45 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/loader-core.test.mjs`

Verification helper: loader core.test.mjs. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/make_deploy.py`

Stage utility: make deploy.py. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/mobile-20261029/pack-phone.mjs`

Stage utility: pack phone.mjs. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: mobile-20261029 (continued)

`work/mobile-20261029/package-lock.json`

Stage utility: package lock.json. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED CORE**. Purpose basis: name/path inference; verify before deletion.

`work/mobile-20261029/package.json`

Stage utility: package.json. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED CORE**. Purpose basis: name/path inference; verify before deletion.

`work/mobile-20261029/package_site.py`

Stage utility: package site.py. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/prepare_host.sh`

Stage utility: prepare host.sh. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/mobile-20261029/prepare_web_patch.py`

Stage utility: prepare web patch.py. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/README.txt`

Stage utility: README.txt. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/mobile-20261029/review-server.mjs`

Stage-specific local preview server.

Importance: **SHARED / HISTORY**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: mobile-20261029 (continued)

`work/mobile-20261029/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **SHARED / HISTORY**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **SHARED / HISTORY**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/save_verification.py`

Stage utility: save verification.py. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/mobile-20261029/simplify-source.mjs`

Stage utility: simplify source.mjs. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/mobile-20261029/stop-review.ps1`

Stage utility: stop review.ps1. iPhone mobile viewer, mesh packing and shared Node dependency lockfiles.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-clean-20261031

Current public Gaussian release sources plus clean calibration/masks/pipeline.

`work/osmo-clean-20261031/assign_split.py`

Stage utility: assign split.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 12 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/build_explicit_pinhole.py`

Materializes calibrated pinhole RGB/masks from native fisheye source frames.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 16 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/cached_variant.py`

Test mapping settings using the same immutable calibrated images/features/matches.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/check_floor_consistency.py`

Stage utility: check floor consistency.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/continue_explicit_full.py`

Stage orchestration for the explicit full-scene training pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/continue_pipeline.py`

Continue the authorized rebuild, preserving completed stages across chat interruptions.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/fit_explicit_depth.py`

Fits/checks depth in the explicit calibrated pinhole frame.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 18 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/geometry/make_native_manifest.py`

Create the clean 3840-square SfM manifest without reading old reconstruction poses.

Importance: **FOUNDATION**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/geometry/negative_ray_audit.py`

CPU observed-free-space audit. Reports contradicted faces, never edits a mesh.

Importance: **FOUNDATION**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/geometry/normalize_fresh_sfm.py`

Checks scene continuity and applies one audited +Y-up normalization.

Importance: **FOUNDATION**. Purpose basis: reviewed filename + source context. 17 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/geometry/operator_pinhole.py`

Projects operator-mask evidence between native fisheye and pinhole coordinates.

Importance: **FOUNDATION**. Purpose basis: reviewed filename + source context. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/geometry/test_negative_rays.py`

Small CPU geometry checks for candidate negative-ray classification.

Importance: **FOUNDATION**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/geometry/test_operator_pinhole.py`

CPU geometric/semantic checks for operator segmentation view reprojection.

Importance: **FOUNDATION**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/geometry/test_preparation_synthetic.py`

CPU integration checks with tiny synthetic fisheye data, no capture/model access.

Importance: **FOUNDATION**. Purpose basis: module introductory docstring.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/inspect_audit.py`

Stage utility: inspect audit.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/masking/approve_pinhole.py`

Stage utility: approve pinhole.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **FOUNDATION**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/build_masks.py`

Builds per-frame operator and mirror exclusion masks.

Importance: **FOUNDATION**. Purpose basis: reviewed filename + source context. 15 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/compose_reviewed.py`

Compose corrected operator masks without accepting broad semantic detections.

Importance: **FOUNDATION**. Purpose basis: module introductory docstring. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/diagnose_blue.py`

Stage utility: diagnose blue.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **FOUNDATION**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/diagnostic_fill.py`

Stage utility: diagnostic fill.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **FOUNDATION**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/final_qa_sheets.py`

Stage utility: final qa sheets.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **FOUNDATION**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/masking/mirror_annotations.py`

Reviewed mirror-region annotations; source masking evidence.

Importance: **FOUNDATION**. Purpose basis: reviewed filename + source context. 12 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/pinhole_sheets.py`

Stage utility: pinhole sheets.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **FOUNDATION**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/preview_sources.py`

Contact sheets from root-selected source thumbnails; no GPU or model writes.

Importance: **FOUNDATION**. Purpose basis: module introductory docstring. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/publish_masks.py`

Publishes reviewed source masks into the clean dataset.

Importance: **FOUNDATION**. Purpose basis: reviewed filename + source context. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/repair_pinhole.py`

Stage utility: repair pinhole.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **FOUNDATION**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/masking/update_final_candidates.py`

Stage utility: update final candidates.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **FOUNDATION**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/remap_cached.py`

Controlled SfM registration retry; preserve original evidence and reuse immutable matches.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/review/align-capture-frames.py`

CPU-only old/new pose alignment for review; never alters training or source models.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/assemble-review.py`

CPU-only plate assembly and pixel comparison for browser-saved exact-pose renders.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/audit-gaussian-free-space.py`

Read-only diagnostic for Gaussian cores intruding into known training cameras.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/audit-negative-rays.py`

Read-only screening of large Gaussians against observed training feature rays.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/check-preview-projection.py`

CPU-only diagnostic: project seed and intermediate Gaussian centres at fresh poses.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/clean-review.html`

Stage utility: clean review.html. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/clean-review.html.before-explicit-full`

Stage utility: clean review.html.before explicit full. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/review/clean-viewer.mjs`

Stage utility: clean viewer.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/clean-viewer.mjs.before-explicit-full`

Stage utility: clean viewer.mjs.before explicit full. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/review/converter/package-lock.json`

Stage utility: package lock.json. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/review/converter/package.json`

Stage utility: package.json. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/review/export-clean-cameras.py`

Exports calibrated camera presets, source crops and scene framing metadata.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/failure-server.mjs`

Stage utility: failure server.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/review/index.html`

Stage utility: index.html. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 95 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/review/make-visibility-preview.py`

Create a separate experimental PLY copy for a controlled visibility comparison.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/match-native-evaluation.py`

Locate native evaluation faces matching one calibrated source crop.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/pack-sog.py`

Official SOG packing wrapper with source count, SH and hash provenance.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 16 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/pack-spz.mjs`

Native Gaussian SPZ packing experiment.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/prepare-production.py`

Apply narrowly scoped native-viewer changes to the isolated production copy only.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/production/audit-deploy-native.py`

Local-only release failure checks, fixture archive and generated shell syntax.

Importance: **LIVE BASELINE**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/build.mesh-reference.mjs`

Stage utility: build.mesh reference.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/review/production/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/choice-core.js`

Canonical model-choice aliases and one-launch lifecycle logic.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/choice-gate.test.mjs`

Verification helper: choice gate.test.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/chooser.js`

Starts the selected viewer only after the explicit Open action.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 27 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/delivery-policy.js`

Mesh download, decoded geometry and texture limits.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 33 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/deploy-native.ps1`

Explicit remote deployment runner; changes production only on execution.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/deploy-native.template.sh`

Remote atomic deployment template for the approved package.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/review/production/deployment/deploy-native.sh`

Stage utility: deploy native.sh. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/deployment/repromote-native.sh`

Stage utility: repromote native.sh. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/deployment/rollback-native-retry.sh`

Stage utility: rollback native retry.sh. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/deployment/rollback-native.sh`

Stage utility: rollback native.sh. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/loader-core.js`

Model selection, budgets, streaming progress, cancellation and deadlines.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 45 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/loader-core.test.mjs`

Verification helper: loader core.test.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/model-selection.test.mjs`

Verification helper: model selection.test.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 13 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/review/production/native-delivery.js`

Gaussian format mapping, splat budgets and first visible-draw readiness.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/native-delivery.test.mjs`

Verification helper: native delivery.test.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/package.json`

Stage utility: package.json. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **LIVE BASELINE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/review/production/prepare-deploy.py`

Audits file closure and hashes; packages only an approved exact release.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/repromote-native.ps1`

Operational repromotion helper; inspect exact release before execution.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/rollback-native.template.sh`

Template for returning the public symlink to the previous release.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/review/production/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/production/verify-public-native.py`

Public HTML / headers and bounded model verification; not a new rebuild.

Importance: **LIVE BASELINE**. Purpose basis: reviewed filename + source context. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/README.txt`

Stage utility: README.txt. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/review/score-native-eval.py`

Score every native held-out render on its real binary keep-mask.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 12 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/server.mjs`

Stage-specific local review HTTP server.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/review/summarize-clean-review.py`

Compare real matched-camera screenshots and create an auditable contact sheet.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/review/viewer.mjs`

Stage utility: viewer.mjs. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-clean-20261031 (continued)

`work/osmo-clean-20261031/run_logged_job.py`

Runs a command with durable status, timing, log and exit-code records.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 23 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/run_stage.py`

Isolated clean rebuild. Every invocation records exact commands and refuses stale outputs.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/select_frames.py`

Selects native capture timestamps and records original source timing.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-clean-20261031/start_when_masks_ready.py`

Queue camera alignment behind the explicit reviewed-mask release marker.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-clean-20261031/status.py`

Stage utility: status.py. Current public Gaussian release sources plus clean calibration/masks/pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-clean-20261031/validate_explicit_depth.py`

Cross-time visibility/consistency checks and trusted depth/seed construction.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 18 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-format-20261031

OSV format, colour, calibration and fisheye approximation investigations.

`work/osmo-format-20261031/audit_sfm.py`

Independent CPU audit of the Osmo main component; no dataset mutations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-format-20261031/calib_slots.py`

Dump every lens calibration slot of an .OSV clip and derive the lens baseline DJI's own stitching-distance presets imply (research only).

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-format-20261031/CalibrationSelector.cpp`

Stage utility: CalibrationSelector.cpp. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-format-20261031/CmdProbe.cpp`

Stage utility: CmdProbe.cpp. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-format-20261031/decode_calibration.py`

Stage utility: decode calibration.py. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-format-20261031/DjmdDecoder.cpp`

Stage utility: DjmdDecoder.cpp. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-format-20261031/dvtm_osmo360.proto`

Stage utility: dvtm osmo360.proto. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-format-20261031 (continued)

`work/osmo-format-20261031/fit_kb4.py`

Stage utility: fit kb4.py. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-format-20261031/inspect_color.py`

Stage utility: inspect color.py. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-format-20261031/make_unlit_diagnostic.py`

Local QA only: add unlit glTF material tags; retain every binary chunk byte.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-format-20261031/MetadataTrack.cpp`

Stage utility: MetadataTrack.cpp. OSV format, colour, calibration and fisheye approximation investigations.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-improve-20261031

Surface, photometric and photo-baking utilities reused by later work.

`work/osmo-improve-20261031/extract_candidate.py`

Stage utility: extract candidate.py. Surface, photometric and photo-baking utilities reused by later work.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/geometry_audit_agent.py`

CPU, read-only geometry boundary audit of native source GLB (not meshopt-packed).

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/photo_bake_agent.py`

Native source-photo projection and visibility-tested mesh texture baker.

Importance: **SHARED CORE**. Purpose basis: reviewed filename + source context. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/photo_render_check_agent.py`

Independent hidden-OpenGL, unlit six-reference appearance comparison.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/photometric_audit_agent.py`

CPU-only source-track brightness/color diagnostic; no color correction.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/plane-audit-common-grid.py`

Compare unchanged baseline/v4 on identical plane-grid cells, excluding openings.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring.

`work/osmo-improve-20261031/plane-audit-helper.py`

CPU-only feasibility measurements for architectural planes; never edits geometry.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring.

Source files: osmo-improve-20261031 (continued)

`work/osmo-improve-20261031/qa-extract-full.py`

Reproduce the accepted extraction's exact FPS selection at native lens size.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/qa-geometry.py`

CPU-only welded topology and sparse-observation visibility consistency.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/qa-paired-comparison.py`

Compare exactly paired CPU visibility observations, without rendering/GPU.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/qa-support-filter.py`

Conservative spatial-evidence face filter; raw GLB attribute/image preservation.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 5 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/qa-surface-v4.py`

One authorized isolated 40000->50000 geometry-prior refinement trial.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-improve-20261031/qa-training-config.py`

Read-only comparison and CPU Gaussian scale audit of retained local runs.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring.

`work/osmo-improve-20261031/qa-watch-v4-texture.py`

Wait for root's completed GPU export, then CPU-filter and compare it once.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring.

Source files: osmo-normal-audit-20261031

Evidence about depth normals and scene orientation.

`work/osmo-normal-audit-20261031/audit_all_normals.py`

Read-only, CPU-only trusted-depth normal conditioning over accepted fits.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-normal-audit-20261031/audit_normals.py`

Read-only CPU comparison of raw/aligned ray-depth and MoGe normals.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

Source files: osmo-parity-20261101

Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

`work/osmo-parity-20261101/audit-staging.py`

Local package/file audit and test that the failed review cannot be approved.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/build_explicit_pinhole.py`

Materializes calibrated pinhole RGB/masks from native fisheye source frames.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 16 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/continue_explicit_full.py`

Stage orchestration for the explicit full-scene training pipeline.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/diagnostic-pilots.py`

8k geometry/primitive/exposure diagnostic groups.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/fit_explicit_depth.py`

Fits/checks depth in the explicit calibrated pinhole frame.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 18 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/make-acceptance-report.py`

Builds the 20-page execution/failed-acceptance PDF.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/occupied_bounds.py`

Computes robust dense occupied bounds, fitted planes and framing samples.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/pilot-runs.py`

Matched 1200/1600 small training experiments; not automatic full promotion.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/prepare-highres.py`

Builds the controlled 1600px Lanczos dataset and reuses exact trusted guidance.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/record-acceptance.py`

Writes the four explicit release-gate decisions and supporting evidence.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/analyze-display.py`

Stage utility: analyze display.py. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-parity-20261101/review/bake-coherent.attempt1.py`

A chart-consistent photo-texturing pilot, with source masks and first-hit tests.

Importance: **CURRENT REVIEW**. Purpose basis: module introductory docstring.

`work/osmo-parity-20261101/review/bake-coherent.py`

Chart-consistent source-photo selection with masks and first-hit visibility.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/build-qa.mjs`

Stage utility: build qa.mjs. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/carve-poisson.py`

Removes closures contradicted by at least five distinct trusted timestamps.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/display-ablation.mjs`

Eight display-only blur/DPR/splat-budget comparisons.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/export-clean-cameras.py`

Exports calibrated camera presets, source crops and scene framing metadata.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/fuse-trusted.py`

GPU TSDF fusion of validated training-only Euclidean ray ranges.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/mesh-pilot/pack-baked.mjs`

Packs the photo-baked mesh; image data and source geometry remain separately audited.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/mesh-pilot/pack-textured.mjs`

Packs/simplifies a textured mesh preview.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/mesh-pilot/pack-vertex.mjs`

Packs the vertex-colour mesh preview from generated typed buffers.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/mesh-pilot/unpack-vertex.py`

Regenerates mesh typed buffers from the retained vertex-colour PLY.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/photo_bake_native.py`

Photographic rebake of an uncompressed native mesh; original GLB is immutable.

Importance: **CURRENT REVIEW**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/poisson-pilot/photo-bake-implementation.py`

Pilot-specific copied/adapted photo-bake implementation; provenance source.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/poisson-preview.py`

Regenerates typed vertex buffers from retained NPZ/seed geometry.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/poisson-projected/photo-bake-implementation.py`

Pilot-specific copied/adapted photo-bake implementation; provenance source.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/poisson-surface.py`

Screened Poisson from oriented validated samples and accurate SfM anchors.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/prepare-qa.py`

Creates fixed-pose source references and model links for comparisons.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/preserve-intermediate.py`

Stage utility: preserve intermediate.py. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-parity-20261101/review/production/audit-deploy-native.py`

Local-only release failure checks, fixture archive and generated shell syntax.

Importance: **CURRENT REVIEW**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/build.mesh-reference.mjs`

Stage utility: build.mesh reference.mjs. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/choice-core.js`

Canonical model-choice aliases and one-launch lifecycle logic.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/choice-gate.test.mjs`

Verification helper: choice gate.test.mjs. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/chooser.js`

Starts the selected viewer only after the explicit Open action.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 27 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/production/delivery-policy.js`

Mesh download, decoded geometry and texture limits.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 33 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/deploy-native.ps1`

Explicit remote deployment runner; changes production only on execution.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/deploy-native.template.sh`

Remote atomic deployment template for the approved package.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/gaussian-cutaway.js`

Experimental reversible splat ceiling / wall cutaway; visual gate failed.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/loader-core.js`

Model selection, budgets, streaming progress, cancellation and deadlines.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 45 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/loader-core.test.mjs`

Verification helper: loader core.test.mjs. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/model-selection.test.mjs`

Verification helper: model selection.test.mjs. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion. 13 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/production/native-delivery.js`

Gaussian format mapping, splat budgets and first visible-draw readiness.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/native-delivery.test.mjs`

Verification helper: native delivery.test.mjs. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/package.json`

Stage utility: package.json. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-parity-20261101/review/production/prepare-deploy.py`

Audits file closure and hashes; packages only an approved exact release.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/repromote-native.ps1`

Operational repromotion helper; inspect exact release before execution.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/rollback-native.template.sh`

Template for returning the public symlink to the previous release.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/production/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/production/verify-public-native.py`

Public HTML / headers and bounded model verification; not a new rebuild.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/projected-poisson-uv.py`

Fast local planar UV patches and atlas packing on preserved compact geometry.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/qa-capture.mjs`

Captures the four exact 1920x1080 views and surface overviews.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/qa-viewer.html`

Stage utility: qa viewer.html. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/qa-viewer.js`

Local-only fixed-pose model comparison renderer.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/score-final-eval.py`

Reuse the independently matched, valid-pixel evaluation on the new full run.

Importance: **CURRENT REVIEW**. Purpose basis: module introductory docstring.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/score-qa.py`

Masked same-pose comparison scores and fixed 600px crops.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/serve.mjs`

Local review HTTP server; does not publish production.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/simplify-poisson.mjs`

Boundary-preserving compact geometry and measured simplifier error.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/test-poisson-carve.py`

Synthetic test of the exact face-carving shader, including timestamp dedup.

Importance: **CURRENT REVIEW**. Purpose basis: module introductory docstring.

`work/osmo-parity-20261101/review/test-trusted-fusion.py`

Independent ray-range plane and mask checks for the actual fusion shader.

Importance: **CURRENT REVIEW**. Purpose basis: module introductory docstring.

`work/osmo-parity-20261101/review/tsdf-pilot/photo-bake-implementation.py`

Pilot-specific copied/adapted photo-bake implementation; provenance source.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/unwrap-trusted.py`

Conformal atlas trial; slower superseded Poisson attempts are recorded.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/review/verify-choice-and-phone-policy.mjs`

Pre-choice network checks and emulated touch/DPR policy checks.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/review/verify-controls.mjs`

Browser navigation, explicit-open, preset and release-state checks.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/run-mesh-pilot.py`

Stage utility: run mesh pilot.py. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-parity-20261101/run-photo-bake.py`

Stage utility: run photo bake.py. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-parity-20261101/run_logged_job.py`

Runs a command with durable status, timing, log and exit-code records.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 23 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/setup.py`

Stage utility: setup.py. Latest local rejected rebuild, corrected controls, pilots, surface tests and gates.

Importance: **CURRENT REVIEW**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-parity-20261101/sparse-init-pilot.py`

8k RGB-only diagnostic replacing the dense starting cloud with sparse features.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-parity-20261101 (continued)

`work/osmo-parity-20261101/start-full.py`

Executed 50k high-resolution training request; inspect prior status before rerun.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/validate_explicit_depth.py`

Cross-time visibility/consistency checks and trusted depth/seed construction.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 18 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-parity-20261101/verify-input-contract.py`

Verifies camera/seed/guidance identity and preserved original/iPhone hashes.

Importance: **CURRENT REVIEW**. Purpose basis: reviewed filename + source context. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-pdf-audit

Earlier video-to-model report authoring and verification.

`work/osmo-pdf-audit/contact_sheets.py`

Stage utility: contact sheets.py. Earlier video-to-model report authoring and verification.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-pdf-audit/report_author.py`

Single-PDF forensic report. This script never starts reconstruction or deployment.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-pdf-audit/report_content.py`

Narrative for the single PDF. All technical claims are qualified and sourced.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-pdf-audit/validate_pdf.py`

Stage utility: validate pdf.py. Earlier video-to-model report authoring and verification.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-reconstruct-20261031

Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.

`work/osmo-reconstruct-20261031/align_depths.py`

Stage utility: align depths.py. Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-reconstruct-20261031/export_web_cameras.py`

Export upright 90-degree reference views from registered Osmo fisheye poses.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-reconstruct-20261031/mesh_trusted.py`

Stage utility: mesh trusted.py. Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-reconstruct-20261031/normalize_sfm.py`

Stage utility: normalize sfm.py. Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-reconstruct-20261031/probe_seed_fits.py`

Small CPU-only, read-only depth-fit probe; never writes dataset/seed.ply.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring.

`work/osmo-reconstruct-20261031/refit_trusted_scale.py`

Fresh scale-only ray-depth supervision; existing maps are never changed.

Importance: **SHARED / HISTORY**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-reconstruct-20261031/resume_trusted.py`

Stage utility: resume trusted.py. Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-reconstruct-20261031 (continued)

`work/osmo-reconstruct-20261031/run_stage.py`

Stage utility: run stage.py. Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-reconstruct-20261031/seed_fisheye.py`

COLMAP camera/image/track reader, fisheye rays, world transforms and seed export.

Importance: **SHARED CORE**. Purpose basis: reviewed filename + source context. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-reconstruct-20261031/test_seed_fisheye.py`

Verification helper: test seed fisheye.py. Reusable COLMAP/fisheye I/O and earlier depth-guided reconstruction.

Importance: **SHARED / HISTORY**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-ux-report-20261031

Previous 73-page quality report, source snapshot and partial historical graph.

`work/osmo-ux-report-20261031/build_report.py`

Create the requested single PDF; never train or deploy a reconstruction.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

`work/osmo-ux-report-20261031/code/assign_split.py`

Stage utility: assign split.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 12 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/build_explicit_pinhole.py`

Materializes calibrated pinhole RGB/masks from native fisheye source frames.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 16 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/continue_explicit_full.py`

Stage orchestration for the explicit full-scene training pipeline.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/fit_explicit_depth.py`

Fits/checks depth in the explicit calibrated pinhole frame.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 18 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/geometry/normalize_fresh_sfm.py`

Checks scene continuity and applies one audited +Y-up normalization.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 17 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/geometry/operator_pinhole.py`

Projects operator-mask evidence between native fisheye and pinhole coordinates.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-ux-report-20261031 (continued)

`work/osmo-ux-report-20261031/code/masking/approve_pinhole.py`

Stage utility: approve pinhole.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/build_masks.py`

Builds per-frame operator and mirror exclusion masks.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 15 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/compose_reviewed.py`

Compose corrected operator masks without accepting broad semantic detections.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/diagnose_blue.py`

Stage utility: diagnose blue.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/diagnostic_fill.py`

Stage utility: diagnostic fill.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/final_qa_sheets.py`

Stage utility: final qa sheets.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/mirror_annotations.py`

Reviewed mirror-region annotations; source masking evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 12 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-ux-report-20261031 (continued)

`work/osmo-ux-report-20261031/code/masking/pinhole_sheets.py`

Stage utility: pinhole sheets.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/preview_sources.py`

Contact sheets from root-selected source thumbnails; no GPU or model writes.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/publish_masks.py`

Publishes reviewed source masks into the clean dataset.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/repair_pinhole.py`

Stage utility: repair pinhole.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/masking/update_final_candidates.py`

Stage utility: update final candidates.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/pack-sog.py`

Official SOG packing wrapper with source count, SH and hash provenance.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 16 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/production/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-ux-report-20261031 (continued)

`work/osmo-ux-report-20261031/code/review/production/choice-core.js`

Canonical model-choice aliases and one-launch lifecycle logic.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/production/chooser.js`

Starts the selected viewer only after the explicit Open action.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 27 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/production/delivery-policy.js`

Mesh download, decoded geometry and texture limits.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 33 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/production/loader-core.js`

Model selection, budgets, streaming progress, cancellation and deadlines.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 45 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/production/native-delivery.js`

Gaussian format mapping, splat budgets and first visible-draw readiness.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/production/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/review/score-native-eval.py`

Score every native held-out render on its real binary keep-mask.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 12 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-ux-report-20261031 (continued)

`work/osmo-ux-report-20261031/code/run_logged_job.py`

Runs a command with durable status, timing, log and exit-code records.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 23 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/select_frames.py`

Selects native capture timestamps and records original source timing.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/code/validate_explicit_depth.py`

Cross-time visibility/consistency checks and trusted depth/seed construction.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 18 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-ux-report-20261031/collect_evidence.py`

Stage utility: collect evidence.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-ux-report-20261031/graphify-out/graph.html`

Stage utility: graph.html. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-ux-report-20261031/graphify_audit.py`

Stage utility: graphify audit.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-ux-report-20261031/report_content.py`

Stage utility: report content.py. Previous 73-page quality report, source snapshot and partial historical graph.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-ux-report-20261031 (continued)

`work/osmo-ux-report-20261031/verify_report.py`

Verify the single report artifact, without touching reconstruction or hosting.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

Source files: osmo-web-20261031-v2

Historical chooser / quota changes and delivery experiments.

`work/osmo-web-20261031-v2/audit_deploy_helper.py`

Audit generated deployment with a tiny local fixture. No network or real build.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/choice-core.js`

Canonical model-choice aliases and one-launch lifecycle logic.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/choice-gate.test.mjs`

Verification helper: choice gate.test.mjs. Historical chooser / quota changes and delivery experiments.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/chooser.js`

Starts the selected viewer only after the explicit Open action.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 27 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/delivery-policy.js`

Mesh download, decoded geometry and texture limits.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 33 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/deploy.sh`

Stage utility: deploy.sh. Historical chooser / quota changes and delivery experiments.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-web-20261031-v2 (continued)

`work/osmo-web-20261031-v2/loader-core.js`

Model selection, budgets, streaming progress, cancellation and deadlines.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 45 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/loader-core.test.mjs`

Verification helper: loader core.test.mjs. Historical chooser / quota changes and delivery experiments.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/model-selection.test.mjs`

Verification helper: model selection.test.mjs. Historical chooser / quota changes and delivery experiments.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 13 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/pack-osmo.mjs`

Stage utility: pack osmo.mjs. Historical chooser / quota changes and delivery experiments.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/package.json`

Stage utility: package.json. Historical chooser / quota changes and delivery experiments.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-web-20261031-v2/prepare_deploy.py`

Package the final reviewed build; never operates on the remote host itself.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/README.txt`

Stage utility: README.txt. Historical chooser / quota changes and delivery experiments.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-web-20261031-v2 (continued)

`work/osmo-web-20261031-v2/review-server.mjs`

Stage-specific local preview server.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v2/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-web-20261031-v3

Historical mesh release and source for retained iPhone assets.

`work/osmo-web-20261031-v3/audit_deploy_helper.py`

Audit generated deployment with a tiny local fixture. No network or real build.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/audit_real_build.py`

Build and package in a disposable sibling, then audit the actual inline HTML.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/choice-core.js`

Canonical model-choice aliases and one-launch lifecycle logic.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 31 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/choice-gate.test.mjs`

Verification helper: choice gate.test.mjs. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/chooser.js`

Starts the selected viewer only after the explicit Open action.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 27 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/delivery-policy.js`

Mesh download, decoded geometry and texture limits.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 33 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-web-20261031-v3 (continued)

`work/osmo-web-20261031-v3/deploy.sh`

Stage utility: deploy.sh. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/loader-core.js`

Model selection, budgets, streaming progress, cancellation and deadlines.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 45 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/loader-core.test.mjs`

Verification helper: loader core.test.mjs. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/model-selection.test.mjs`

Verification helper: model selection.test.mjs. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 13 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/pack-osmo.mjs`

Stage utility: pack osmo.mjs. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/pack-profile.test.mjs`

Verification helper: pack profile.test.mjs. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/package.json`

Stage utility: package.json. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: osmo-web-20261031-v3 (continued)

`work/osmo-web-20261031-v3/prepare_deploy.py`

Package the final reviewed build; never operates on the remote host itself.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/README.txt`

Stage utility: README.txt. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-web-20261031-v3/review-server.mjs`

Stage-specific local preview server.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/verify_public.py`

Stage utility: verify public.py. Historical mesh release and source for retained iPhone assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031-v3/write_delivery.py`

Assemble the final local receipt only after complete, coherent release checks.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring.

Source files: osmo-web-20261031

Historical first Osmo mesh delivery; not the current public release.

`work/osmo-web-20261031/audit_deploy_helper.py`

Local fixture audit only; does not read the current build or contact a host.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/build.mjs`

Builds a local web bundle and manifest; contains stage-specific paths.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 29 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/deploy.sh`

Stage utility: deploy.sh. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/loader-core.js`

Model selection, budgets, streaming progress, cancellation and deadlines.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 45 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/loader-core.test.mjs`

Verification helper: loader core.test.mjs. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/model-selection.test.mjs`

Verification helper: model selection.test.mjs. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 13 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/pack-osmo.mjs`

Stage utility: pack osmo.mjs. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-web-20261031 (continued)

`work/osmo-web-20261031/package.json`

Stage utility: package.json. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-web-20261031/prepare_deploy.py`

Package the final reviewed build; never operates on the remote host itself.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/public-index-response.html`

Stage utility: public index response.html. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-web-20261031/README.txt`

Stage utility: README.txt. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/osmo-web-20261031/review-server.mjs`

Stage-specific local preview server.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: osmo-web-20261031 (continued)

`work/osmo-web-20261031/verify_public.py`

Stage utility: verify public.py. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/osmo-web-20261031/write_receipt.py`

Stage utility: write receipt.py. Historical first Osmo mesh delivery; not the current public release.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: recovery-report

Historical iPhone recovery verification and supporting evidence.

`work/recovery-report/build_recovery_report.py`

Stage utility: build recovery report.py. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/collect_recovery_pack.py`

Stage utility: collect recovery pack.py. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/recovery-report/finalize_native_metadata.py`

Stage utility: finalize native metadata.py. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/recovery-report/make_qa_sheets.py`

Stage utility: make qa sheets.py. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/recovery-report/publish_native_evidence.py`

Stage utility: publish native evidence.py. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/recovery-report/reference_pack/implementation/scripts/05_seed_cloud.py`

20261027_IPHONE_WIDE Phase 3: dense seed cloud from MoGe-2 depth maps.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/06_zone_split.py`

20261027_IPHONE_WIDE Phase 4a: split the unified model into room zones.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 5 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: recovery-report (continued)

`work/recovery-report/reference_pack/implementation/scripts/07_train_zone.py`

20261027_IPHONE_WIDE Phase 4b: per-zone GPU training (spirula train meshing).

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/08_mesh_zone.py`

20261027_IPHONE_WIDE Phase 4c: 8K-textured mesh extraction per zone.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/09_merge_export.py`

Export compact meshes and recorded cameras in one baked, +Y-up frame.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 13 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/12_merge_models.py`

Rebuild the corrected iPhone merge without changing checkpoint datasets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/20_component_recovery.py`

Isolated component-aligned recovery. Never overwrite legacy datasets/checkpoints.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 15 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/21_recovery_pilot.py`

Projection sanity checks and gated fresh training/extraction for recovery v2.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/22_recovery_export.py`

Stage two component-aligned native meshes; promote only after visual gates.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: recovery-report (continued)

`work/recovery-report/reference_pack/implementation/scripts/23_wide_component_bridge.py`

Test spatially distributed doorway constraints; do not promote a weak fit.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/24_safe_simplification.py`

Bounded simplification trials with independent sampled surface checks.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/25_verify_promote_recovery.py`

Verify actual v2 delivery assets, then promote a reviewed local derivative.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/26_all_usable_coverage.py`

Correct the extra view holdouts in an isolated, full-coverage living run.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/27_recovery_geometry_plot.py`

Plot the two component-native meshes and all source poses without changing them.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/28_alternative_kitchen_extraction.py`

Bounded test of Argon's alternative 0.65 / 640 kitchen extraction.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/29_publish_full_native.py`

Publish the full native geometry selected explicitly by the human user.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: recovery-report (continued)

`work/recovery-report/reference_pack/implementation/scripts/30_verify_native_delivery.py`

Read back the published camera model and hash the streamed offline asset.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/colmap_io.py`

Minimal COLMAP model reader/writer for the 20261027_IPHONE_WIDE project.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/pipeline_guard.py`

Prevent historical temporal-zone commands from replacing component outputs.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/scripts/reconstruction_frame.py`

Shared frame/GLB math. Column-vector convention: p' = s R p + t.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 5 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/ablate-recovery.mjs`

Stage utility: ablate recovery.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/build-viewer.mjs`

Stage utility: build viewer.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/check-recovery-deviation.mjs`

Stage utility: check recovery deviation.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: recovery-report (continued)

`work/recovery-report/reference_pack/implementation/viewer-src/compress-recovery.mjs`

Stage utility: compress recovery.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/diagnose-missing.mjs`

Stage utility: diagnose missing.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/mesh-controls.mjs`

Stage utility: mesh controls.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/mesh-viewer.html`

Stage utility: mesh viewer.html. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/package-lock.json`

Stage utility: package lock.json. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/package.json`

Stage utility: package.json. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/recovery-depth-client.js`

Stage utility: recovery depth client.js. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: recovery-report (continued)

`work/recovery-report/reference_pack/implementation/viewer-src/review.html`

Stage utility: review.html. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/room-shell.html`

Chooser and viewer page markup; explicit Open gates model downloads.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 22 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/run-recovery-server.mjs`

Stage utility: run recovery server.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/simplify-recovery.mjs`

Stage utility: simplify recovery.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 2 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/stage-packed-recovery.mjs`

Stage utility: stage packed recovery.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/start-primary-viewer.mjs`

Stage utility: start primary viewer.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: recovery-report (continued)

`work/recovery-report/reference_pack/implementation/viewer-src/test-controls.mjs`

Verification helper: test controls.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/verify-recovery.mjs`

Stage utility: verify recovery.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 1 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/implementation/viewer-src/verify-viewer.mjs`

Stage utility: verify viewer.mjs. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/recovery-report/reference_pack/README.txt`

Stage utility: README.txt. Historical iPhone recovery verification and supporting evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

Source files: report

Original architectural report and Nikon/Samsung/iPhone reference evidence.

`work/report/build_report.py`

Stage utility: build report.py. Original architectural report and Nikon/Samsung/iPhone reference evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/report/collect_evidence.py`

Stage utility: collect evidence.py. Original architectural report and Nikon/Samsung/iPhone reference evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

`work/report/reference_pack/implementation/05_seed_cloud.py`

20261027_IPHONE_WIDE Phase 3: dense seed cloud from MoGe-2 depth maps.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 14 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/07_train_zone.py`

20261027_IPHONE_WIDE Phase 4b: per-zone GPU training (spirula train meshing).

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 11 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/08_mesh_zone.py`

20261027_IPHONE_WIDE Phase 4c: 8K-textured mesh extraction per zone.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/09_merge_export.py`

Export compact meshes and recorded cameras in one baked, +Y-up frame.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 13 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/11_gate2_verify.py`

20261027_IPHONE_WIDE Gate 2: compose side-by-side QA renders vs source frames.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: report (continued)

`work/report/reference_pack/implementation/12_merge_models.py`

Rebuild the corrected iPhone merge without changing checkpoint datasets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 10 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/13_diagnose_bridge.py`

Measure the doorway bridge from independent COLMAP tracks, never speed.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/14_metric_bridge.py`

Recompute metric MoGe depth without overwriting training's relative PNGs.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/15_dense_bridge.py`

GPU LoFTR doorway correspondences backed by fresh MoGe metric depth.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/16_solve_frame.py`

Solve an upright frame and a floor-constrained, surface-backed kitchen join.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/17_track_bridge.py`

Triangulate shared doorway features independently on both sides of the seam.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/18_measure_planes.py`

Measure real floor and ceiling planes from surface area and camera up.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 8 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: report (continued)

`work/report/reference_pack/implementation/19_verify_geometry.py`

Independent numerical checks and an XZ/XY/ZY plot of the written GLB.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 6 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/build-viewer.mjs`

Stage utility: build viewer.mjs. Original architectural report and Nikon/Samsung/iPhone reference evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/diagnose-missing.mjs`

Stage utility: diagnose missing.mjs. Original architectural report and Nikon/Samsung/iPhone reference evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/doorway_repair.py`

Conservative completion of the observed, static switch wall at the seam.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/reconstruction_frame.py`

Shared frame/GLB math. Column-vector convention: p' = s R p + t.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 5 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/room-viewer.js`

Interactive 3D camera, mode switching, controls, rendering and loading states.

Importance: **HISTORY / EVIDENCE**. Purpose basis: reviewed filename + source context. 46 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/samsung-run_high_quality.py`

Recorded local Spirula jobs; each room keeps its own source assets.

Importance: **HISTORY / EVIDENCE**. Purpose basis: module introductory docstring. 3 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

Source files: report (continued)

`work/report/reference_pack/implementation/test-controls.mjs`

Verification helper: test controls.mjs. Original architectural report and Nikon/Samsung/iPhone reference evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 7 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/implementation/verify-viewer.mjs`

Stage utility: verify viewer.mjs. Original architectural report and Nikon/Samsung/iPhone reference evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion. 4 textual filename-reference candidates; inspect exact imports/constructed paths before deletion.

`work/report/reference_pack/README.txt`

Stage utility: README.txt. Original architectural report and Nikon/Samsung/iPhone reference evidence.

Importance: **HISTORY / EVIDENCE**. Purpose basis: name/path inference; verify before deletion.

3D model and original-video archive register

Each asset ID denotes one complete SHA-256 identity, not one local filename. The local aliases remain in assets-manifest.json and the CSV. Click a verified Drive name to open its archived file. Native/uncompressed and packed variants are distinct identities; backup status does not imply visual acceptance.

Complete retained-file register

All 19,959 retained paths are listed below. A directory header supplies the parent path; each row supplies the complete basename, purpose and importance. Every F-number uniquely identifies a full path in the embedded CSV. Exact byte counts are logical; use file ID/link count in the CSV to distinguish hardlinks.

The register includes dependency libraries and every evidence image, not only hand-picked source files. The generated audit pack, its own PDF and render scratch are excluded to prevent self-reference; the preceding evidence-map section names those outputs. A short role label is a file-purpose classification, not a finding that an individual dependency is unused.

File register: (root)

Start-here README, Git exclusions and the small cloud-asset identity manifest.

Filename under current directory	Purpose / role	Importance	Bytes	ID
./				
.gitignore	Authored source	START HERE	1,006	F00001
assets-manifest.json	Build / asset inventory	START HERE	75,755	F00002

File register: output

Recent finalized PDFs; current audit PDF is generated after the inventory snapshot.

Filename under current directory	Purpose / role	Importance	Bytes	ID
`output/pdf/`				
`Osmo_Architect_Mandate_Execution_and_Acceptance_2026-11-01.pdf`	User-facing report / offline export	USER EXPORT	10,833,280	F00003
`Osmo_Quality_Controls_and_Pipeline_Review_2026-10-31.pdf`	User-facing report / offline export	USER EXPORT	11,302,794	F00004

File register: outputs

Earlier user-facing exports, offline viewers, reports and verification receipts.
